

TIMETRIX™ Sync
Synchronized Clock Systems

HEALTHCARE
SIMPLE : SMART®

Build a system...

No need to break the budget. You can start synchronizing your facility with TimeTrax Sync™ Starter Packs. Each bundle comes equipped with five clocks, communication device and/or TimeTrax Sync™ software. Take your pick from analog or digital clock bundles.

Every system is simple to setup and easily expandable. It's the perfect fit for small facilities or retrofit projects.

Analog & digital clock bundles available.
RF Wireless bundle includes one transmitter
with up to 250,000 sq. ft. signal coverage.

For every environment.

***TIME*TRAX™ Sync**

Every clock system uses TimeTrax™ Sync software to point to an accurate, dependable NTP (National Time Protocol) time source and supports an unlimited number of analog or digital wall clocks.

WiFi Wireless

TimeTrax™ Sync WiFi Clock System transmits reliable time using a standard internet connection.

Power over Ethernet

TimeTrax™ Sync PoE Clock System harnesses the cost effectiveness of Power over Ethernet to continuously transmit a reliable time signal over Ethernet cabling.

Radio Frequency Wireless

TimeTrax™ Sync Wireless RF Transmitters use wireless frequency-hopping technology to continuously transmit a reliable time signal.

Optimize.

Synchronized time...

Improve risk management, promote efficiency and eliminate facility maintenance costs in the healthcare environment with precisely synchronized clocks.

Accurate time is critical in healthcare facilities where life-saving decisions are made every second of every day. Efficient patient throughput, standardized schedules, timely medication disbursement, accurate medical record maintenance and Joint Commission compliance rely on precisely synchronized time from the emergency room to the patient's room.

Pyramid TimeTrax™ Sync Clock Systems automatically maintain accurate synchronized time across work stations, departments, floors, buildings & even campus-wide.

ER/ED

OR

OB

Improves risk management.

Promotes efficiency.

Provides time accuracy in patient records & medication disbursement

Assists in Medicare Reimbursement requirements (DRG Incentive)

Helps meet HIPAA time synchronization mandates

Complies with Joint Commission timekeeping regulations

ICU

CCU

Eliminates maintenance costs.

Standardizes shift changes

Count up/down digital timer system measures elapsed time during Code Blue Emergencies

Synchronizes time between work stations, departments, buildings & campus-wide

Automatically adjusts for Daylight Savings Time & power outages

Eliminates wired installs (Power over Ethernet & battery operated systems)

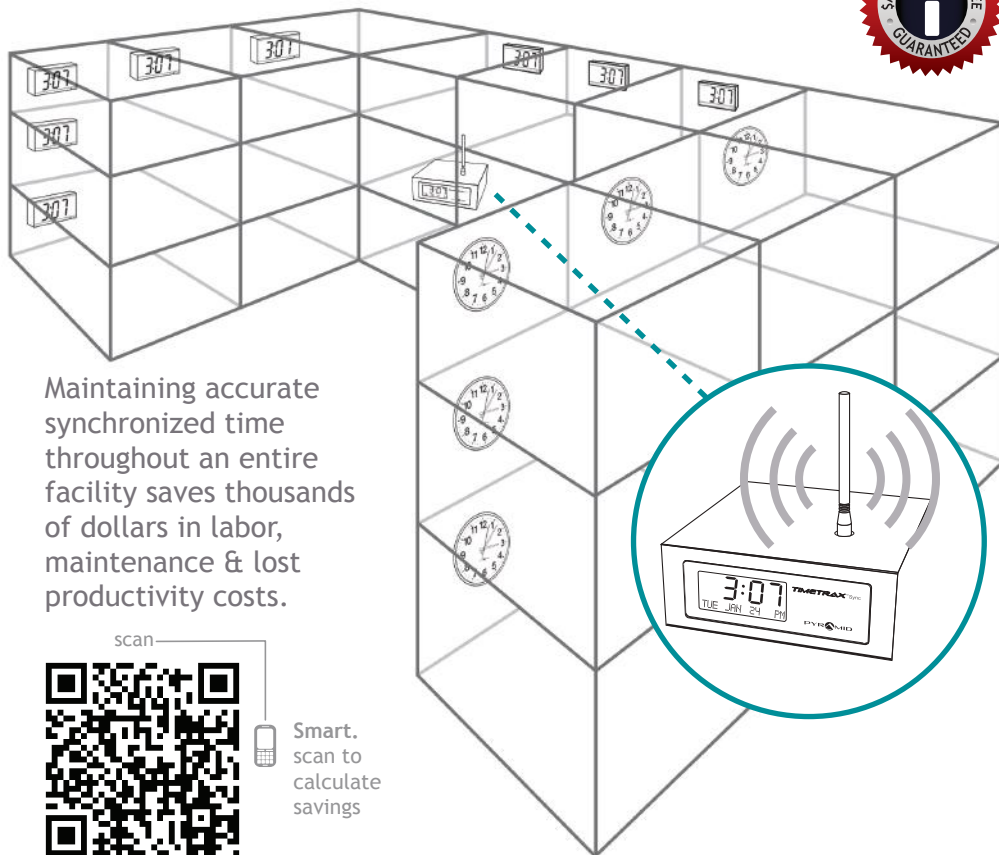

Energy efficient power sources

Recommendation: Use vibrant red 6-digit LED digital clocks and code blue timers in OR, ICU and CCU. Use ABS frame analog clocks in patient rooms and premium wood frame analog clocks for general areas. Accessorize with dual clock wall or ceiling brackets and NEMA 5 wash-down enclosures.

Synchronize & save.
