

TIMETRATMX Sync
Synchronized Clock Systems

INDUSTRIAL
SIMPLE : SMART[®]

Build a system.

No need to break the budget. You can start synchronizing your facility with TimeTrax Sync™ Starter Packs. Each bundle comes equipped with five clocks, communication device and/or TimeTrax Sync™ software. Take your pick from analog or digital clock bundles.

Every system is simple to setup and easily expandable. It's the perfect fit for small facilities or retrofit projects.

Analog & digital clock bundles available.
RF Wireless bundle includes one transmitter
with up to 250,000 sq. ft. signal coverage.

For every environment.

***TIME*TRAX™ Sync**

Every clock system uses TimeTrax™ Sync software to point to an accurate, dependable NTP (National Time Protocol) time source and supports an unlimited number of analog or digital wall clocks.

WiFi Wireless

TimeTrax™ Sync WiFi Clock System transmits reliable time using a standard internet connection.

Power over Ethernet

TimeTrax™ Sync PoE Clock System harnesses the cost effectiveness of Power over Ethernet to continuously transmit a reliable time signal over Ethernet cabling.

Radio Frequency Wireless

TimeTrax™ Sync Wireless RF Transmitters use wireless frequency-hopping technology to continuously transmit a reliable time signal.

Optimize.

Synchronized time...

Improve productivity, promote efficiency and eliminate facility maintenance costs in manufacturing or distribution facilities with precisely synchronized clocks.

Manufacturing processes, shift changes and shipping schedules are dependent upon accurate timing. Synchronized time is essential to managing daily operations, harmonizing the workplace, and streamlining processes.

Pyramid TimeTrax™ Sync Clock Systems automatically maintain accurate synchronized time across the production floor, warehouse, shipping department, front office, customer service and throughout an entire manufacturing or distribution facility.

FRONT OFFICE

MANUFACTURING

WAREHOUSE

Maximizes workforce.

Streamlines processes.

LEAN

Maximizes workforce, streamlines processes & improves productivity

Integrates with Tone, Bell & Time Clock Systems

Count Up/Down Digital Timer provides time measures for critical production events

Improves employee accountability & punctuality

CUSTOMER SERVICE

SHIPPING

Eliminates maintenance costs.

Standardizes shift changes

Synchronizes time across the front office, production floor, break room, warehouse and facility-wide

Automatically adjusts for Daylight Savings Time & power outages

Vibrant LED red digital clocks provide optimum visibility (up to 250 ft)

Eliminates wired installs (Power over Ethernet & battery operated systems)

Energy efficient power sources

Recommendation: Use 4in. character, 4-digit LED digital clocks in production or warehouse areas for optimum visibility. Use LCD battery operated digital clocks in hard to wire locations. Accessorize with NEMA 5 wash-down enclosures to protect clocks from dust, dirt & grime.

Synchronize & save.

TimeTrax™ RF Wireless Clock System configuration
