SECURITY BRACKET REMOVAL
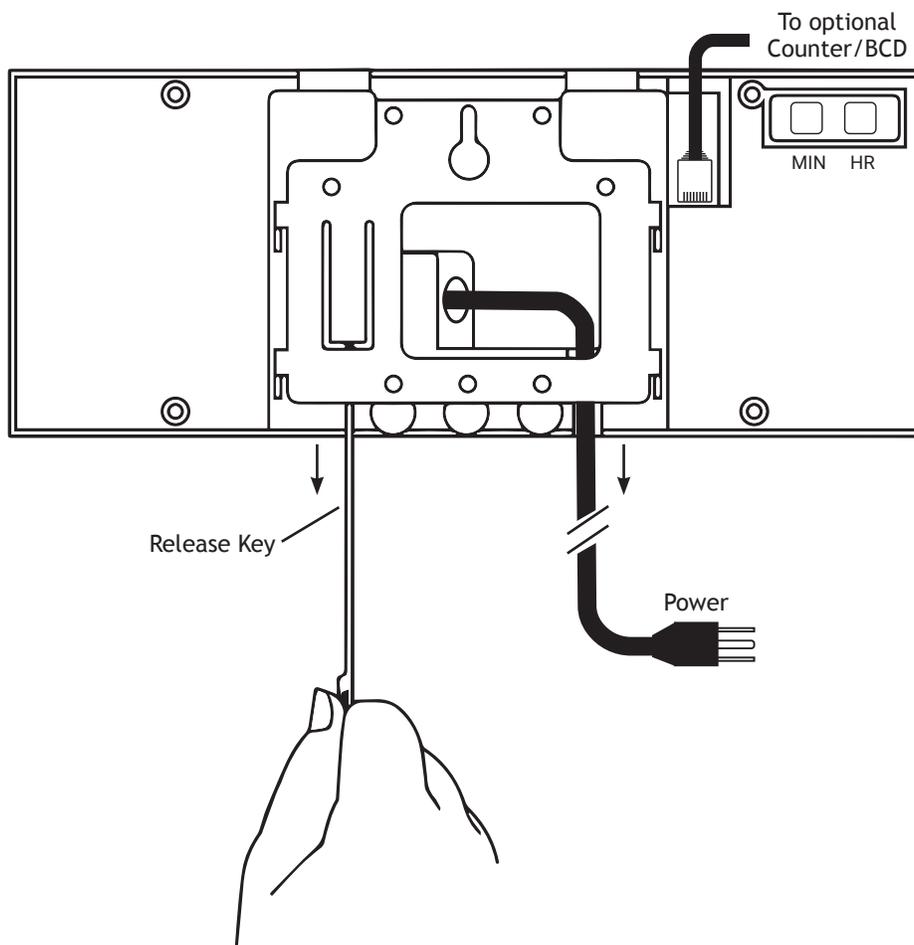

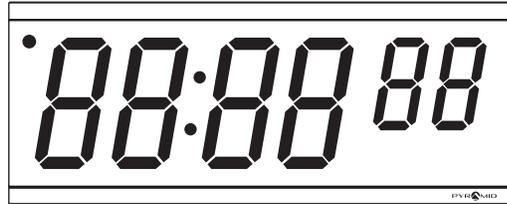

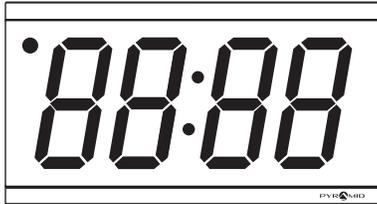

1. Prior to installation, detach metal security bracket from clock by inserting included release key into slot located on back of clock.

2. Push key all the way into slot. Key will slide easily until some resistance from locking tab is felt.

3. With key fully engaged, slide the security bracket down and off of the clock.

4. When ready to hang after setting up the clock see your digital bracket template provided.

SET TIME

① Plug clock into standard electrical outlet. Clock displays 88:88 (DIG-4B) or 88:88:88 (DIG-6B).

② To set time, hold clock display facing towards you and locate two buttons on back of clock. With clock display facing you, press left hand button to set hour. Press right hand button to set minute. PM is indicated by the PM indicator light in upper left hand corner.

24 HOUR MODE (MILITARY TIME)

① To change clock from 12 Hour to **24 Hour mode**, locate two buttons on back of clock. Press both buttons at same time and hold until clock displays "24" then release buttons. Clock will display 00:00. Set time per "SET TIME" instructions above.

② To return to **12 Hour mode**, press two buttons again at the same time until clock displays "12", then release buttons. Clock will display 12:00 when ready to set time.

OPTIONAL SYNCHRONIZATION

The DIG-48 and DIG-68 standalone clocks are able to interface with any Pyramid Device with BCD output to synchronize time to one or multiple clocks. Connection is made with an RJ45 cable to the BCD output on the device.
